

The 21st Century Communities Environmental Quality Assessment

The questions included in this assessment are designed to help you look more closely at issues regarding environment-related infrastructure issues in your community as you enter the 21st Century. We encourage you to visit Project Rosie where you can access additional information regarding environmental quality.

We express our appreciation to David Workman for serving as our team leader in developing the Environmental Quality Assessment. If you have questions about economic development which are not answered here or recommendations for this assessment, feel free to contact him by email at dworkman@deq.state.ut.us
